

(From Death Register on file in Court House at Albany, Mo.)
 Death Records were kept in all Missouri Counties beginning 1883; however, after a few years, many deaths were not reported and, finally, the register was discontinued. Even the early years probably were incomplete. In order to save space, we have listed here only deaths for persons old enough to appear in the 1880 census. Names of parents were not usually given. Sometimes the person filing the record could not make a complete report.
